## Notes to Financial Statements

March 31, 2015 and 2016

(In Canadian dollars) Unaudited

---

### ***1 - NATURE OF OPERATIONS***

Nunavik Nickel Mines Ltd (the "Company") is involved in the process of exploring, evaluating and promoting its mineral properties and other projects.

The Company is nevertheless seeking opportunities in various resource and non-resource sectors, which, if it materializes, may result in the Company undertaking a change in business under the policies of the Exchange.

### ***2 - GOING CONCERN ASSUMPTION AND STATEMENT OF COMPLIANCE WITH IFRS***

These interim financial statements have been prepared in compliance with International Financial Reporting Standards (IFRS) and the basis of the going concern assumption, meaning the Company will be able to realize its assets and discharge its liabilities in the normal course of operations.

The Company's ability to continue as a going concern depends upon its ability to obtain necessary financing to fund its prospection operations, its projects and continued support of suppliers and creditors. Given its short history, the Company's ability to raise enough financing to meet these objectives cannot be determined at this time. The Company's business involves a high degree of risk and there is no assurance that the Company will be successful in discovering economically recoverable deposits on its mineral properties. Furthermore, the Company has not yet generated any income or cash flows from its operations and there is no assurance that the business will be profitable in the future. As at March 31, 2016, the Company has a cumulated deficit of \$1,192,815 (\$1,167,845 as at December 31, 2015). These material uncertainties cast significant doubts regarding the Company's ability to continue as a going concern.

The carrying amounts of assets, liabilities and expenses presented in the interim financial statements and the classification used in the interim financial statements have not been adjusted as would be required if the going concern assumption was not appropriate. Those adjustments could be material.

### ***3 - GENERAL INFORMATION***

The Company was incorporated on February 18, 2010 under the Business Corporations Act of British Columbia. The head office of the Company is located at 152 Chemin de la Mine École, Val-d'Or, Quebec, Canada. The Company's registered and records office is located at #1810 - 1111 West Georgia Street, Vancouver, B.C. V6E 4M3. The Company also has administrative offices located at 800 René-Lévesque Boulevard West, Suite 425, Montréal, Quebec, H3B 1X9. As at March 31, 2016, Golden Valley Mines Ltd. ("Golden Valley"), the parent company, is holding a 60.27 % participation in the Company.

### ***4 - BASIS OF PRESENTATION***

These interim financial statements are covering the three month period ended March 31, 2016 and were prepared in accordance with International Financing Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), under International Accounting Standard ("IAS") 34 - Interim Financial Reporting. These interim financial statements were prepared using the same accounting policies, methods of computation and basis of presentation as outlined in Note 5 - Summary of Accounting Policies, as described in the Company's annual audited financial statements for the year ended December 31, 2015. Interim financial statements do not include all the notes required in annual financial statements and, accordingly, should be read in conjunction with with the annual financial statements for the year ended December 31, 2015.

The interim financial statements of the Company will be included in the consolidation perimeter of its controlling shareholder Golden Valley.

### 5 - SUMMARY OF ACCOUNTING POLICIES

#### 5.1 - Overall considerations

The significant accounting policies that have been applied in the preparation of these financial statements are summarized in Note 5 - Summary of Accounting Policies, of the Company's annual audited financial statements for the year ended December 31, 2015.

#### 5.2 - Functional and presentation currency

These financial statements are presented in Canadian dollars, which is the Company's functional currency.

### 6 - JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

When preparing the financial statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. These judgements, estimates and assumptions are summarized in Note 6 - Judgements Estimates and Assumptions, of the Company's annual audited financial statements for the year ended December 31, 2015.

#### 6.1 - Impairment of exploration and evaluation assets

In assessing impairment, the Company must make some estimates and assumptions regarding future circumstances, in particular, whether an economically viable extraction operation can be established, the probability that the expenses will be recovered from either exploitation or sale when the activities have not reached a stage that permits a reasonable assessment of the existence of reserves, the Company's capacity to obtain financial resources necessary to complete the evaluation and development and to renew permits. Estimates and assumptions may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in profit or loss in the period when the new information becomes available.

See Note 8 for the exploration and evaluation assets impairment analysis.

No impairment loss was recognized during the period ended March 31, 2016 and during the year ended December 31, 2015.

Management judged that there was no testing for impairment required this period on the Boston Bulldog Prospect and the Marymac Prospect properties. The Company has sufficient funds to respect its short term obligations and has both the intention and capacity to keep the property until the economic context improves and the Company can pursue its exploration activities on the property after raising additional capital. Additionally, claims will not expire in the near future or will be renewed, promising results were obtained on this property and works were performed during previous years.

### 9.3 - Warrants

On January 30, 2015, 1,250,000 warrants were issued at an exercise price of \$0.12 and 41,250 compensation warrants were issued at an exercise price of \$0.10.

Outstanding warrants entitle their holders to subscribe to an equivalent number of ordinary shares, as follows:

	March 31, 2016	
	Number of warrants	Weighted average exercise price
Balance, beginning of reporting period	-	\$ -
Granted	1,291,250	0.12

	March 31, 2016

January 30, 2017	1,291,250	\$ 0.12

When granted, the fair value of the 41,250 warrants issued as compensation warrants was measured by the reference to the fair value of the equity instruments granted, the fair value of services received cannot be estimated reliably. The fair value of \$4,877 was recorded as an increase of share issue expenses and increase of warrants.

The fair value of \$0.12 each to the warrants issued as compensation warrants was estimated on the grant date using the Black-Scholes option pricing model with the following assumptions:

Share price at date of grant	\$0.18
Expected dividend yield	0%
Expected volatility	100%
Risk-free interest rate	0.39%
Expected life	2 years
Exercise price at the date of grant	\$0.10

### 11 - LOSS PER SHARE

The calculation of basic loss per share is based on the net loss for the period divided by the weighted average number of shares in circulation during the period. The diluted loss per share, calculated as if potential common shares had been issued, would have had the effect of decreasing the loss per share which would be antidilutive. Therefore potential dilutive common shares such as stock options have not been included in the calculation as they would result in a reduction of the loss per share. Detail of stock options issued that could potentially dilute earnings per share in the future is given in Note 10.

Both the basic and diluted loss per share have been calculated using the net loss attributable to owners of the Company as the numerator, i.e. no adjustment to the net loss were necessary in either of the periods ended March 31, 2016 and 2015.

	March 31,

Loss for the period attributable to the owners of the Company	\$24,970	\$32,759

The Company will resume payment of the management fees when its cash situation will permit.

The Management Agreement is for an initial term of two years commencing on the Trading Date, and will be automatically renewed after the initial term for successive period of 12 months. The Management Agreement can be terminated at any time and by either party, upon delivery of a twelve month written notice.
