VAL-D'OR MINING CORPORATION

Notes to Financial Statements

September 30, 2019 and 2018

(Expressed in Canadian dollars unless otherwise noted)

1) STATUTES OF INCORPORATION AND NATURE OF ACTIVITIES

Val-d'Or Mining Corporation (the "Company"), incorporated on February 18, 2010 under the Business Corporations Act of British Columbia is involved in the process of exploring, evaluating and promoting its mineral properties and other projects.

The head office of the Company is located at 152 Chemin de la Mine École, Val-d'Or, Québec, J9P 7B6. The Company's registered and records office is located at #530 - 355 Burrard Street, Vancouver, B.C. V6C 2G8. The Company also has exploration offices located at 2864 Chemin Sullivan, Val-d'Or, Québec, J9P 0B9.

The Company's shares trades on the TSX Venture Exchange ("TSX-V") under its trading symbol "VZZ".

2) GOING CONCERN

These condensed interim financial statements have been prepared in accordance with International Financing Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and the basis of the going concern assumption, meaning the Company will be able to realize its assets and discharge its liabilities in the normal course of operations.

The Company's ability to continue as a going concern depends upon its ability to obtain necessary financing to fund its prospection operations, its projects and continued support of suppliers and creditors. The Company's ability to raise enough financing to meet these objectives cannot be determined at this time. The Company's business involves a high degree of risk and there is no assurance that the Company will be successful in discovering economically recoverable deposits on its mineral properties. Furthermore, the Company has not yet generated any income or cash flows from its operations and there is no assurance that the business will be profitable in the future. As at September 30, 2019, the Company has accumulated deficit of \$3,884,296 (As at December 31, 2018 - \$3,564,614).

These material uncertainties cast significant doubt regarding the Company's ability to continue as a going concern. The carrying amounts of assets, liabilities and expenses presented in the financial statements and the classification used in the financial statements have not been adjusted as would be required if the going concern assumption was not appropriate. Those adjustments could be material.

3) BASIS OF PRESENTATION

These condensed interim financial statements, approved by the Board of Directors on November 22, 2019, have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, including IAS 34, "Interim Financial Reporting". These condensed interim financial statements as well as the related notes should be read in conjunction with the annual audited financial statements of the Company for the year ended December 31, 2018.

4) SIGNIFICANT ACCOUNTING POLICIES

a) *Overall considerations*

The significant accounting policies followed in these unaudited condensed interim financial statements are consistent with those applied in the Company's audited annual consolidated financial statements for the year ended December 31, 2018, except in relation to policies adopted in the nine months period ended September 30, 2019. The accounting policies set out below are in accordance with IFRS and have been applied to these unaudited condensed interim financial statements.

Leases

The Company leases an office space and equipment. Lease agreements are typically made for fixed periods of one to five years but may have extension options. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. Prior to January 1, 2019, leases of offices and equipment were classified as operating leases. Payments made under operating leases, net of any incentives received from the lessor, were charged to profit or loss on a straight-line basis over the period of the lease.

From January 1, 2019, leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company. Each lease payment is allocated between the lease liabilities and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the lease liabilities for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Assets and liabilities arising from leases are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments, less any lease incentives receivable;
- variable lease payment that are based on an index or a rate;
- amounts expected to be payable by the lessee under residual value guarantees;
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option;
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Payments associated with short-term leases and leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets tends to comprise of computer equipment and small items of office furniture.

4) SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Changes in IFRS accounting policies and future accounting pronouncements

Certain pronouncements were issued by the IASB or the International Financial Reporting Interpretations Committee that are mandatory for accounting years ended after December 31, 2019. Many are not applicable or do not have a significant impact to the Company and have been excluded from the summary below.

IFRIC 23, Uncertainty over Income Tax Treatments (“IFRIC 23”)

In June 2017, the IASB issued IFRIC 23. IFRIC 23 clarifies the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under IAS 12 and requires an entity to consider whether it is probable that the relevant authority will accept each tax treatment, or group of tax treatments, that it uses or plans to use in its income tax filing. IFRIC 23 is effective for annual periods beginning on or after January 1, 2019 and permits early adoption. The adoption of IFRIC 23 did not have a material impact on the financial statements.

IFRS 16, “Leases” (“IFRS 16”)

In January 2016, the IASB issued IFRS 16. The new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however remains largely unchanged and the distinction between operating and finance leases is retained. This standard is effective for annual reporting periods on or after January 1, 2019.

The Company applied IFRS 16 on January 1, 2019 and selected the modified retrospective transition approach which does not require restatement of comparative periods, as permitted under the specific transitional provisions in the standard. The reclassifications and the adjustments arising from the new leasing rules were therefore recognized on the opening balance sheet on January 1, 2019. On adoption of IFRS 16, the Company recognized lease liabilities in relation to leases, which had previously been classified as “operating leases” under the principles of IAS 17 “Leases”. These liabilities were measured at the present value of the remaining lease payments, discounted using the interest rate of 5% implicit in the lease as at January 1, 2019.

The following table reconciled the differences between the operating lease commitments as at December 31, 2018 and lease liabilities recognized on January 1, 2019:

Reconciliation

Operating lease commitments as at December 31, 2018	\$	9,691
Discounted using the interest rate implicit in the lease		(2,880)
Lease liabilities recognized as at January 1, 2019	\$	6,811

(Expressed in Canadian dollars unless otherwise noted)

4) SIGNIFICANT ACCOUNTING POLICIES (continued)

IFRS 16, "Leases" ("IFRS 16") (continued)

The associated right-of-use assets were measured at the amount equal to the lease liabilities, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized on the Statement of Financial Position as at December 31, 2018. There were no onerous lease contracts that would have required an adjustment to the right-of-use assets at the date of initial application.

The recognized right-of-use assets relate to the following types of assets:

	As at September 30, 2019	As at January 1, 2019
Equipment	\$ 5,351	\$ 6,811
Office space ^(a)	-	-
	\$ 5,351	\$ 6,811

- a) In applying IFRS 16 for the first time, the Company used the practical expedients permitted by the standard relating the Company's lease office space whereby the accounting for operating leases with a remaining lease term of less than 12 months as at January 1, 2019 as short-term leases.

5) JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of these condensed interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the amounts reported in the condensed interim financial statements and accompanying notes. Management believes that the estimates used in the preparation of the condensed interim financial statements are reasonable; however, actual results may differ materially from these estimates. The areas involving significant judgments, estimates and assumptions have been detailed in note 5 to the Company's audited financial statements for the year ended December 31, 2018.

6) CASH AND CASH EQUIVALENT

	As at September 30, 2019	As at December 31, 2018
Cash	\$ 108,132	\$ 597,208
Demand deposits	30,000	30,000
	\$ 138,132	\$ 627,208

The deposit is due on demand and bears interest at 1.65% per annum and maturing on February 5, 2020.

8) EXPLORATION AND EVALUATION ASSETS (continued)

a) *Abitibi Greenstone Belt Prospect - Québec and Ontario*

On April 18, 2017, the Company signed a Mining Option Agreement ("Option") with Golden Valley to acquire a 100% interest in 61 grassroots properties in the Abitibi Greenstone Belt Prospect. Pursuant to the terms of the Option, the Company must incur \$4,000,000 of expenditures with respect to exploration and other mining operations on the properties before December 31, 2021 (with \$500,000 to be incurred on or before December 31, 2018, \$750,000 to be incurred on or before the December 31, 2019, \$1,000,000 to be incurred on or before December 31, 2020, and \$1,750,000 to be incurred on or before December 31, 2021). As consideration for the Option, the Company will issue 16,666,668 common shares to Golden Valley at a deemed price of \$0.12 per share for an aggregate deemed value of \$2,000,000 (issuable as to 4,166,667 common shares on or before each of December 31, 2018, 2019, 2020 and 2021).

In addition, the Company has granted Golden Valley a royalty equal to 1.25% of the net smelter returns ("NSRs") from the 61 properties on the terms set out in the option agreement of which 1% may be bought back by the Company by paying Golden Valley \$5,000,000, at the Company's option, in cash or shares at a deemed price per share equal to the market price of the Company's shares at the time of such election. If the Company has issued the common shares and incurred the expenditures provided for in the option agreement, it may exercise the option on or before December 31, 2021.

For the year ended 2018, the Company has incurred exploration and evaluation expenditures of \$616,864 which exceeded its obligation to incur \$500,000 of expenditures on or before December 31, 2018 as required under the Option Agreement. As the Company continued the earn-in process on the 61 properties optioned from Golden Valley, the Company issued on January 22, 2019 a total of 4,166,667 of its common shares, valued at \$416,667, to Golden Valley in accordance with the Option Agreement. (note 15c).

For the nine months ended September 30, 2019, the Company has incurred exploration and evaluation expenditures of \$317,267 for a total of \$934,131. The Company may not meet its obligation to spend a total of \$1,250,000 of exploration expenditures before December 31, 2019; however, the Company believes that it will be able to obtain an extension from Golden Valley should there be a shortfall in the exploration expenditures by the end of the year.

Prospects optioned from Golden Valley include Oregon, Magoma and Ducros Sill, all located Val-d'Or, Québec, with carrying values of \$459,517 (December 31, 2018 -\$423,517), \$446,448 (December 31, 2018 - \$386,760) and \$175,589 (December 31, 2018 - \$174,337), respectively.

8) EXPLORATION AND EVALUATION ASSETS (continued)

b) Boston Bulldog Prospect - Kirkland Lake, Ontario

The Boston Bulldog Prospect is comprised of 15 claim cells located in Kirkland Lake, Ontario, in which the Company was granted an option to acquire a 100% interest.

On February 16, 2015, the Company entered into a Mining Option Agreement, amended on March 6, 2015, March 24, 2017, January 19, 2018 and March 5, 2019, pursuant to which it has been granted by 2973090 Canada Inc., a Canadian private company wholly-owned and controlled by the president and director of the Company, an option to acquire a 100% interest in the mineral claims comprising the Boston Bulldog Prospect, subject to a 3% NSR royalty. In consideration of the grant of the option, the Company paid 2973090 Canada Inc. a sum of \$5,000 in cash to cover the cost of staking the property and issued 300,000 common shares (issued in April 2015).

To maintain and exercise the option, the Company must keep the property in good standing and incur minimum mining operations expenditures of \$50,000 by April 7, 2020. In accordance with the terms of the option, the Company has the right to reduce the royalty from 3% to 2% of the NSR by paying 2973090 Canada Inc. \$1,000,000 at any time on or before February 16, 2022.

This prospect was impaired as the Company was not planning any work in the near future.

c) Shoot-Out Prospect - Northern Québec

The Shoot-Out Prospect is the combination of two properties, East Shoot-Out and West Shoot-Out, and is located in the Raglan Belt of northern Québec. The Company has a 100% ownership interest in this property that is subject to a 3% NSR in favor of the original vendors, one of which is a director and President of the Company.

This prospect was impaired as the Company was not planning any work in the near future.

d) Fortin Prospect - Abitibi, Québec

The Fortin Prospect is located in the central part of Ducros Township, approximately 80 kilometres northeast of the City of Val-d'Or, Québec, and consists of 5 contiguous mining claims. The Company holds a 100% interest in this property that is subject to a 1.5% NSR in favour of the original vendors. The Company retains the right to buyback the NSR at anytime; 0.5% buyback for \$500,000 and 1% buyback for \$1,000,000. This prospect was impaired in 2013.

11) SHARE-BASED PAYMENTS

Stock option plan

The Company has adopted an incentive stock option plan pursuant to which directors, officers, employees and consultants are eligible to receive incentive stock options. Under the terms of this plan, the aggregate number of shares issuable upon the exercise of all options granted thereunder may not exceed 10% of the Company's common shares issued and outstanding at the time of grant. The exercise price of each option is fixed by the Board of Directors, but shall not be less than the closing price of the Company's share on the trading day immediately prior to the date of grant less any discount permitted by the Exchange; if no sales were reported, it shall be the sales closing price on the last trading day immediately prior to the date of grant on which sales were reported. The vesting period of the options shall be determined by the Board of Directors, in accordance with the rules and regulations of the TSX Venture Exchange. All share-based payments will be settled in equity. The Company has no legal constructive obligation to repurchase or settle the options in cash.

A summary of changes in the number of incentive stock options is presented as follows:

	For the nine months ended September 30, 2019		For the nine months ended September 30, 2018

11) SHARE-BASED PAYMENTS (continued)

Stock option plan (continued)

On June 17, 2019, the Company granted to its directors, officers, employees and consultants incentive stock options entitling the purchase of an aggregate 722,263 common shares at an exercise price of \$0.075 per share. The options are exercisable for a period of 5 years until June 17, 2024. All options are exercisable immediately. The fair value of the 722,263 stock options has been estimated on the date of issue at \$45,739, using the Black-Scholes option-pricing model with the following assumptions: share price at date of grant: \$0.075; expected dividend yield: nil; expected volatility: 125.39%; risk-free interest rate: 1.34%; expected life: 5 years and exercise price at the date of grant: \$0.075 per share. For the nine months ended September 30, 2019, an amount of \$28,763 has been expensed as share-based payments in the statement of net loss and of \$16,976 has been capitalized to Exploration and Evaluation Assets.

On February 5, 2018, the Company granted to its directors, officers, employees and consultants incentive stock options entitling the purchase of an aggregate 2,600,000 common shares at an exercise price of \$0.105 per share. The options are exercisable for a period of 5 years until February 5, 2023. All options are exercisable immediately. The fair value of the 2,600,000 stock options has been estimated on the date of issue at \$256,925, using the Black-Scholes option-pricing model with the following assumptions: share price at date of grant: \$0.11; expected dividend yield: nil; expected volatility: 166.95%; risk-free interest rate: 2.03%; expected life: 5 years and exercise price at the date of grant: \$0.105 per share. For the three and nine months ended September 30, 2018, an amount of \$nil and \$144,520 has been expensed and of \$nil and \$112,405 has been capitalized to exploration and evaluation assets, respectively.

The expected volatility used above in the assumptions was determined by reference to historical data of the Company's shares over the expected average life of the stock options. No special features inherent to the stock options granted were incorporated into measurement of fair value.

The number of outstanding stock options that could be exercised for an equal number of common shares is as follow:

Expiration date	Number of options	Exercise price
November 20, 2019	43,199	0.080
May 16, 2021	424,301	0.065
February 5, 2023	2,500,000	0.105
October 24, 2023	510,097	0.110
June 17, 2024	722,263	0.075

11) SHARE-BASED PAYMENTS (continued)

Restricted Share Unit Plan

At the annual general and special meeting of shareholders held on June 27, 2016, the shareholders approved the adoption and implementation of a Restricted Share Unit Plan (the "RSU Plan"). The RSU Plan will be adopted and implemented by the Company's Board upon receipt of acceptance by the TSX Venture Exchange. The RSU Plan provides that restricted share units ("Share Units") may be granted by the Company's Compensation and Corporate Governance Committee (the "Committee") to executive officers, directors, employees and consultants (each a "Participant") as a bonus or similar payment in respect of services rendered or otherwise as compensation, including as an incentive for future performance. At the time Share Units are granted to a Participant, the Committee will determine any time-based or other conditions as to the vesting of the Share Units and the expiry date (the "Expiry Date") for such Share Units. The Expiry Date of a Share Unit will be decided at the grant date. The aggregate number of common shares issuable pursuant to Share Units granted under the RSU Plan will not, at any given time, exceed 1,288,199 common shares. The Company's RSU Plan was approved by the TSX Venture Exchange.

No restricted shares units were issued for the three and nine months ended September 30, 2019.

12) LOSS PER SHARE

Loss per share has been calculated using the weighted average number of common shares outstanding for the three and nine months ended September 30, 2019 and 2018 as follows:

	For the three months ended		For the nine months ended	
	September 30,		September 30,	
	2019	2018	2019	2018
Net loss for the period	\$ 60,153	\$ 107,162	\$ 319,682	\$ 459,342
Weighted average number of common shares - Basic	42,498,605	34,022,797	41,498,244	33,572,892
Dilutive effect of stock options and warrants	-	-	-	-
Weighted average number of common shares - Diluted	42,498,605	34,022,797	41,498,244	33,572,892
Basic loss per share	\$ 0.001	\$ 0.003	\$ 0.008	\$ 0.014
Diluted loss per share	0.001	0.003	0.008	0.014

For the three and nine months ended September 30, 2019 and 2018, potential dilutive common shares from incentive stock options and warrants have not been included in the loss per share calculation as they would result in a reduction of the loss per share.
